1. The following is an examiner's statement of reasons for allowance: the closest prior art WO'288 teaches an elastomer composition that reads upon the instantly claimed composition wherein the composition provides improvements in terms of mechanical properties such as compression set resistance with respect to other thermoplastic elastomers or vulcanized rubbers and may be utilized in producing various fabricated articles including tubing, seals, and extruded profiles. WO'288, however, does not teach or fairly suggest an electric cable comprising at least one conductor and at least one insulating layer formed from the elastomer composition and the prior art of record provides no suggestion or motivation to utilize the elastomer composition as an insulating layer for an electric cable comprising at least one conductor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monique R Jackson whose telephone number is 571-272-1508. The examiner can normally be reached on Mondays-Thursdays, 8:00AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul J Thibodeau can be reached on 571-272-1516. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
